Part time Team Administrator and Youth Worker posts

The Kent Estuary Youth project is a charity based in Milnthorpe, serving the surrounding villages; it was founded by local churches six years ago. Our programmes, developed with young people of secondary school age, aim to provide fun and engaging activities that also create opportunities for young people to find ways of coping with the personal, social and emotional challenges they face. We have an expanding range of provision and ambitious development plans.

We are now looking for an Administrator to join our growing and supportive youth work team. (8 hours pw; £12.50 to £14.00 ph depending on experience)

As an integral part of the team, you will need the experience and confidence to take a lead responsibility for organising and delivering the administrative functions that support the programme of activities and the efficient functioning of your colleagues in the team. You will be a self-starter/self-motivated and identify with our activity and approach. There can be some flexibility about the hours, but they will be spread over at least three days.

We are also looking for an additional, sessional Youth Worker for a minimum of 16 hours possibly rising to 22hrs. There can be some flexibility about the hours worked, but they will generally be out of school time. You may or may not have a youth work qualification, but you will have had experience of enabling young people to explore issues of relevance to them and to acquire competencies that help them to realise their full potential. You will be comfortable with our commitment to youth participation.
